→ SUMMARY

I am an engineer passionate about technology and data. With experience in logistics and project management, I am looking for a JUNIOR or TRAINEE opportunity.

→ ACADEMIC BACKGROUND

Bioprocess Engineering and Biotechnology - Completed - Dec/2024

São Paulo State University "Júlio de Mesquita Filho" - UNESP

→ PROFESSIONAL EXPERIENCES

- Food Sanitation Inspection Laboratory - SOAP | UNESP · Internship

I developed and implemented updates to quality control programs for food analysis, ensuring compliance with regulatory standards. I conducted a comprehensive review of Standard Operating Procedures (SOPs), optimizing processes such as sample preparation, execution of analytical methods, and waste disposal. These actions contributed to improving the accuracy and reliability of results, in addition to increasing laboratory efficiency.

- Raízen

Intern in Cutting, Loading, Transportation and Support (CCTA), logistics area.

Working in the data analysis area, I followed the operational routine of heavy vehicles, proactively monitoring their performance through the Maxtrack and Trimble platforms. I performed in-depth analyses in Power BI, identifying optimization opportunities and generating strategic insights for management. I actively participated in forums and training, contributing to the continuous improvement of processes and more assertive decision-making.

- Bioprox Jr. - Project advisor

I closely monitored all stages of the projects, from conception to implementation. I researched new trends and opportunities, monitored the execution of data analyses, contributing to strategic decision-making. My experience in projects allowed me to develop skills in organization, planning and time management, in addition to improving my ability to work in a team. The opportunity to work in partnership with faculty advisors and other professionals in the field was fundamental for my professional development and the expansion of my network of contacts.

→ LANGUAGES

English - Intermediate - MOVER HELLO 2024, scholarship at EF Education First

→ EXTRACURRICULAR

Microsoft Excel 2016, Advanced - Fundação Bradesco Escola Virtual

Google Data Analytics - Coursera

Scrum Fundamentals - LinkedIn Learning

ONE Oracle Next Education Program - bootcamp for Beginners in programming (Back end) in partnership with Alura
